List SF-2

Black & white photographs from the Santa Fe Railway Historical and Modeling Society / Stan Kistler Collection

The majority of photographs listed in this catalog are eye-level side views of cars and equipment, or as shown in the major headings. They are well lighted, in sharp focus, and are generally taken in a 3/4 broadside horizontal format.

PRINT INFORMATION

Black & white enlargements are made to order from original negatives on file with careful attention to show all details in high quality prints. Black and white photo lab work has been my full time occupation for over 55 years, and you are assured of professional prints.
